Rotterdam University of applied sciences
HBO - Industrial Product Design
September 2010 – June 2014

Zoomvliet College - Roosendaal
MBO – Multimedia Design
September 2004 – February 2008

Working Experience

Freelance, Product Design/Engineering

February 2013 – Present

Industry: Product design
Position: Product engineer
Activities: After my internship in 2013 at Unlimited innovation I started working as a freelance designer for the company. During my freelance period I have done several projects like a wooden train toy or a Miffy starlight projector for example. During these projects I converted the ideas of customers to concepts, and after approval engineer the chosen concept and make technical drawings for final production.
Full-time/part-time: Part-time, varied in a week

Freelance, Graphic Design

February 2008 - Present

Industry: Graphic design
Function: Graphic Designer
Activities: Most of my time as a graphic designer I design logos, stationary, leaflets and business cards for different (startup) companies. I regularly have assignments to create short movies like promotion videos.
Full-time/part-time: Part-time, 4 hours a week

Cook / chef cook - Wing's Garden

April 2003 - Present

Industry: Food industry
Position: Cook / Chef Cook
Activities: Next to designing I also work part-time in our restaurant called Wing's Garden. As a cooking chef I prepare food and do the management of the staff.
Full time/part time: Part-time, 20 hours a week

Fittz Men's Fashion

August 2010 – February 2011

Industry: Retail
Function: Sales assistant
Activities: For improving my communication skills I have worked part-time as a sales assistant in a men fashion company. This gave me more confidence in talking with customers and guiding them in buying clothing.
Full-time/part-time: Part-time, 10 hours a week

Altorffer drukkerijen

June 2007 – August 2009

Industry: Graphic Design
Position: DTP layout
Activities: After my internship at Altorffer drukkerijen I worked part-time next to my education as a desktop publisher. After my education in 2008 I started working full-time. After ± 9 months I stopped working as a graphic designer and started my education as an Industrial product designer
Full-time/part-time: Full-time, 40 hours a week

Internships

AMS Group - Graduation Project

February 2014 – June 2014

Industry: Product design / engineering
Position: Product engineer
Activities: For my graduation project I got the assignment to develop a new spinning bike with a vibration unit that affects the lower body of its user for better muscle development. This project was a good learning process starting from an idea till building the final prototype. Developing knowledge in building proof of principles and prototypes, learning the possibilities of metal constructions and gear transmissions and doing user tests for effectiveness of the mechanics.
Full-time/part-time: Full time 40 hours a week

Unlimited Innovation Ltd.

September 2012 – February 2013

Industry: Product design / engineering
Position: Product engineer
Activities: During my trainee period at Unlimited Innovation in Hong Kong. I have done several individual projects. Most of the project are starting from an idea till final productions. These projects include customer meetings, analyses, product design, build test models, engineering, discuss production with factories, and do presentations for clients. This was a good all-around learning process with visits to different factories in China for checking the production or discussing the possibilities.
Full-time/part-time: Full-time, 48 hours a week

Altorffer drukkerijen

February 2007 – June 2007

Industry: Graphic design
Position: Desktop publishing
Activities: During my internship at Altorffer drukkerijen I mostly designed printing material like magazines leaflets and business cards. While designing different magazines and leaflets I had to consider the spaces for cutout measurements and page ordering for the printing process.
Full time/part time: Full-time, 40 hours a week

Frizz-ID

February 2006 – June 2006

Industry: Graphic design
Position: Graphic designer
Work: At Frizz-ID I mainly designed logos, websites and roll-up banners. After designing the roll-up banners it also includes, printing, cutting and build up the displays for publishing.
Full-time/part-time: Full-time, 40 hours a week
